TENDER FOR DEVELOPMENT OF ANDROID APPLICATION

The Samaja invites proposals from leading Android App Development firms for development of a News App in Android platform for its popular newsportal www.samajalive.in. The app must be developed with the latest technology and user friendly interface with the following key features.

- Real-Time Updates
- News categories
- Personalization features
- Registration and personal profiles
- Push notifications
- Ways to engage with the app content
- Search functionality and filters
- Social sharing
- Adaptive design and modifications
- Offline reading
- Multimedia Integration
- Security and Privacy Considerations
- Polls and quizzes

Interested Firms with sufficient experience in development of Android Apps along with 24x7 support may submit their offers with their Company Profile, client details and developed news app list to the undersigned within 30th October 2024.
